

Enterprise Storage Without Compromise

Highly Available. Scalable. Sovereign.

THE FOUNDATION FOR CORPORATE IT

Traditional storage silos cannot keep up with modern data growth. CLYSO provides Ceph-based Software-Defined Storage that eliminates hardware lock-in while ensuring 100% data sovereignty and control.

WHY ENTERPRISES CHOOSE CLYSO

01. Infinite Scalability

Expand capacity and performance on-the-fly and with zero downtime live migrations.

02. Ransomware Protection

S3 Object Lock (WORM) for immutable, audit-proof backups and maximum security.

- 03. Sovereign Data Control** Achieve secure, global data synchronization from the edge to the core.
- 04. Cloud-Native Acceleration** Instant block storage deployment and native integration with Kubernetes, VMware, and Proxmox.
- 05. Maximized ROI & Speed** Fuel AI workloads with high-throughput NVMe pools and cut costs by seamlessly offloading cold database data.

OUR SOLUTIONS

CLYSO Enterprise Storage (CES)

The turnkey, production-ready platform with professional 24/7 support.

Ceph Consulting & Support

Expert architectural reviews and managed migrations for agile DevOps teams.

CLYSO

Ready for a Storage Check?

Evaluate your infrastructure strategy with our core experts.
